**THE PRIORY
SCHOOL**

Achieving Together

School Improvement Plan 2017-2018

KEY PRIORITIES

- **Raise pupil achievement and progression in all subjects**
- **Increase the proportion of outstanding teaching across the school**
- **Maintaining high standards of behaviour and welfare for all pupils**
- **To further improve standards of leadership and management across the school**

The aims and values of the school

"Achieving Together!"

The Priory School exists to provide an education for pupils with a wide range of learning disabilities and for whom education within a mainstream school setting has either failed or is judged to be inappropriate.

We believe that all children are entitled to a form of education that will support them to be healthy, stay safe, enjoy and achieve, make a positive contribution and achieve improved economic well-being.

All adults working at and with The Priory School are firmly committed to this philosophy, which is expressed through a programme of continuous curriculum review and development aimed at maintaining high standards of teaching and learning and within an environment that positively promotes and expects mutual respect.

The over-riding aim of our school is to provide an inclusive education in the most real sense; preparing pupils to take a confident and active place in society well prepared to meet the challenges of adult life, including the world of work and continuing education.

1. To promote pupils' personal, social, emotional and academic development in a happy and caring community.
2. To teach well setting high expectations.
3. To deliver a wide ranging curriculum that can be adapted to meet the needs of all pupils.
4. To help pupils develop lively enquiring minds, the ability to question and argue rationally and to apply themselves to tasks and physical skills.
5. To develop in pupils a sense of self-respect.
6. To promote staff and governor development enabling all to contribute effectively towards the aims of the school.
7. To encourage the support and co-operation of parents in every aspect of their child's education.
8. To encourage pupils to play a positive and responsible part in their own education, to care about the community, both in and out of school, and to behave in an acceptable and considerate manner.
9. To help pupils understand the world in which they live and to instil a respect for religious and moral values, together with a tolerance of other races, religions and ways of life.
10. To help pupils acquire knowledge and skills relevant to adult life.
11. To appreciate and celebrate human achievement in art, literature, music, science, sport and technology.

Synopsis of achievements in the last school year

The academic year 2016-17 saw excellent progress towards a set of challenging school improvement priorities. 2016-17 data analysis evidences that the vast majority of pupils made good or better progress in core subject areas, although minor declines were noted in Science. Lesson observations indicated that the majority of teaching was of good or better standard. A small proportion of teaching requires improvement and its eradication will be a high priority for 2017/18. Pupil behaviour and personal and social development saw improvements from an already high baseline. Higher attaining pupils GCSEs sat their examinations in May. Pupils achieved fantastically well with results ranging from an level 5s to 2s. The introduction of the GCSE programme has undoubtedly been a positive move for the school and has led to improved outcomes for a small, but meaningful cohort of pupils. The overall summary of outcomes has also been really positive. All pupils obtained nationally recognised accreditations and the vast majority secured qualifications at Entry level or above in 9 different areas. All year 11 pupils moved on to college placements or sixth form provision.

Moving forward, key issues for the school to focus upon will include moving more teaching from good to outstanding; maximising the opportunities afforded through trust affiliation, further developments within the Key Stage 4 accreditation and curriculum offer and developing a credible and effective coaching programme across the school.

The School Evaluation Form or SEF continues to serve as a comprehensive and detailed evaluation tool. The SEF acts as a working document that is systematically reviewed by staff and school governors throughout this year and beyond. The writing of the SEF has informed many of this year's priorities for development and improvement.

The school has continued to build on the success of its successful OFSTED inspection of January 2013. All areas of the school's work were graded as Good. Our own current self-evaluation, moderated by experienced leaders from across the MAT and other Lincolnshire Special Schools, now places the school as outstanding for Behaviour and Welfare and good in all other areas.

Other achievements during the past year include:

- Year 11 pupils were successful in gaining a very broad range of qualifications and accreditation, including GCSEs in English and Mathematics.
- The school continues to enjoy a good reputation in the local area and we continue to receive applications for places from parents as a result. Numbers remain very strong, with most year groups running at capacity.
- There were no permanent exclusions and incidents of challenging behaviour have reduced considerably.
- Data analysis for 2016/17 evidences that there are no significant gaps in progression or attainment for pupils from disadvantaged backgrounds, Looked After, ethnically diverse or with Autism.
- The schools external moderation/evaluation agreed with the judgements made in the SEF.
- Ongoing improvements to the building and teaching spaces have impacted positively on learning, including increased outdoor and forest school resourcing and provision.
- The Trust's Safeguarding Health Check evidence that procedures are secure and that pupils are safe and well looked after.
- Behind the scenes, admin and finance staffing have worked tirelessly to ensure that new academy and finance systems are in order and compliant.

Vision for the next three to five years

1. CONTEXTUAL FACTORS

1. There is no doubt that the pupil population continues to change. It is expected that a greater number of pupils will present more complex and behavioural difficulties. The curriculum offered by the school will need to be kept under constant review in the light of these changing needs, as will our styles of curriculum delivery. The rise in academically higher functioning pupils continues and the associated accreditation offer requires regular review.
2. The Local Authority is currently reviewing Special School provision throughout Lincolnshire. Generally speaking special schools are full and, in a number of cases, the buildings are no longer fit for purpose. It will be important to ensure that the schools and CIT exert influence over any future plans to best meet the needs of pupils the SEND within the south of the county.
3. The south of the county is experiencing huge population growth and this is already being reflected in the pressures for places being put upon local primary schools. One can expect some rise in pupil numbers as a result of this trend. In addition, we have noticed, in recent years, a growing number of families from the East Midlands moving to the South Lincolnshire area; very often these families are fairly "nomadic" in their habits and therefore move on elsewhere before too long. This trend has been particularly noticeable in the past year and a more transient pupil population may become a feature in future years.
4. The Priory and Garth Schools converted to Academy schools within CIT in March 2016. This move has presented a fair degree of challenge to the finance and admin teams across the schools; although staff have worked hard to familiarise themselves with new systems and iron out issues. Membership within the CIT family of schools and affiliation to the LEARN Teaching School has begun to impact positively on assessment, curriculum design and teaching and learning.
5. Staff from both schools will develop opportunities to share best practice with mainstream partner schools within the South Holland area and further afield.

2. CURRICULUM & PUPIL LEARNING

1. The school has well established and robust data management systems for analysing pupil progress. The move away from nationally recognised level descriptors for progression will be kept under close review and relevant staff will work closely with similar schools to ensure robust and useful progression measures are developed.
2. The development of closer links with the Garth School to expand upon curriculum and learning opportunities will continue to be a priority.
3. Increased emphasis is being placed on developing and extending both vocational and life-skills provision and training. Accreditation opportunities are regularly evaluated and extended to suit the needs of the pupils. It remains a core aim of the school to ensure that pupils are well prepared for the challenges of adult life, including the world of work and further education, and this aim is highly valued by parents.

4. Subject leaders will continue to drive school improvement through annual curriculum development plans (CDPs). Work continues to further develop the scope and effectiveness of subject leaders. Subject leaders have audited their areas of curriculum responsibility and subject coordination files have been established.
5. The school will continue to seek official recognition and accreditation for its achievements through entering relevant competitions and award schemes. We will continue to explore new ways of offering pupils accreditation in key skills and basic literacy/numeracy at the end of Key Stage 4 and our links with Europe and European special schools will continue to develop. International links further afield have been established and it is intentioned that these new links will be sustained.
6. The use of ICT in general will continue to develop, both as a skill in its own right and as a cross-curricular aid to learning. The school will prioritise the extension and development of its ICT infrastructure to improve teaching and learning throughout.
7. The school will continue to develop its links with mainstream schools as part of its commitment to working within an inclusive environment.

3. STAFF DEVELOPMENT / SCHOOL MANAGEMENT

1. The school is committed to providing staff with the opportunity to develop their skills and build their careers here. Four teachers are now employed at the school having trained through a School Direct ITT route with us. Another member of staff has just embarked on ITT training with the school for 2017/18. The needs of pupils with autistic spectrum disorder in particular require some degree of specialist knowledge on the part of staff and some long-established attitudes and practices may need to be modified. Whilst there will be an obvious need for outside expertise to lead some of this work, much will be carried out through staff discussion and consultation. All staff have obtained Tier one ASD training and many have obtained Tier 2. The school will continue to support staff who wish to follow courses of training leading to formal accreditation. The school therefore remains committed to supporting in-house development of staff and will seek to provide career development opportunities to staff that contribute to enhancing the future capacity of the school and the wider trust. We will develop further our links with the LEARN Teaching School (part of CIT) to provide accredited staff development opportunities.
2. The school is committed to developing the role and skill base of Teaching Assistants and support staff. In light of health authority cuts and a reduction in SALT and OT service levels to schools, the further development of specific roles for TAs in these areas will continue to be a priority.
3. Staff confidence and competence in using ICT, both as a personal professional tool and as a curriculum resource, will continue to develop in importance. As the school moves more and more towards electronic systems of reporting and recording, good ICT skills amongst staff become crucial. The school will continue to support staff with appropriate advice and training.
4. The health and welfare of all staff is a vital component in any school's success and our policies and practices in this respect will be reviewed and developed though meeting the Healthy Schools Standard

4. PREMISES AND MATERIAL RESOURCES

1. The high standard of buildings and grounds currently enjoyed will be maintained and enhanced. The provision of a high quality and attractive environment is a very high priority. Not only is it important that staff and pupils should have a good working environment but it is essential that the message our building and grounds give out to parents and visitors is one of quality - special education is not a second-rate type of provision but a very real quality alternative to mainstream school.
2. As a result of sound financial planning, the school has been able to fully fund all bids for curriculum resource development for the past four years. Last year's spend on curriculum development was just short of £20,000 and a similar figure has been agreed for new development. These are lower figures than in previous years and the cash flat budget position now in its fifth year has led to a reduction in the money available for curriculum development, nevertheless subject areas are well resourced.

5. PUBLIC RELATIONS AND COMMUNITY

1. Broadcasting the work, successes and achievements of the school will continue to be a priority.
2. Seeking external accreditation for success is an important aspect of the school's public relations and a vital element in our contribution to developing an inclusive approach to education as defined in the Lincolnshire County Plan for Special Educational Needs.
3. Links with community groups across the whole of our catchment area need to be developed, both in terms of making the wider community more aware of our school and accessing financial and other help for pupils across the region.

6. THE SCHOOL AS A WHOLE

1. The school is well regarded within the community it serves and support from the LA is excellent.
2. Staff and Governors are firmly committed to the philosophy of the school as expressed in the school's mission statement and aims of the school. This strong consensus about the very purpose of the school is a major strength and will continue to drive school development and improvement.
3. The school will continue to strive towards providing a high quality alternative setting for a secondary education that meets the needs of a range of pupils with learning and other disabilities.
4. The school is committed to strive toward achieving outstanding outcomes for pupils, staff and families alike in all areas

Contents:

KEY PRIORITIES

- **Raise pupil achievement and progression in all subjects and the wider curriculum**
- **Increase the proportion of outstanding teaching across the school**
- **Maintaining high standards of behaviour and welfare for all pupils**
- **Further improve the standard of leadership and management across the school**

As introduced last year's School Improvement Planning documentation, Curriculum Development Plans are no longer contained within this document. Curriculum Development reviews and future planning are now stored in a separate document that will be monitored by the Curriculum Committee throughout the year.

The Priory School Improvement Plan 2017/18

Our school aims to:

Raise pupil achievement and progression in all subjects and the wider curriculum

Increase the proportion of outstanding teaching across the school.

Maintaining high standards of behaviour and behaviours for learning for all pupils across the school.

Maintain and strengthen leadership and management across the school.

How will we do this?

1. To increase the percentage of pupils making expected and more than expected progress in writing, Science and Computing
2. Ensure all interventions are well matched to pupil need
3. All delivery staff to be effectively using Maths Mastery
4. All pupil premium and grant funded students will make progress in line with or ahead of their peers
5. Pupil progress against targets specified within EHCPs will be accelerated.
6. All students in key stage 4 to receive external accreditation for their effort and achievement
7. Fully establish Forest School and incorporate into both discrete and wider curriculum

1. All teaching to be good or better
2. Ensure teachers receive good quality inset, coaching and mentoring linked to identified performance management targets
3. Develop increased opportunities to quality assure teaching
4. To maximise impact of internal and external sources of excellence in the pursuit of outstanding teaching and Leadership
5. Ensure that T and L self-evaluation and review systems impact positively on outcomes and the quality of teaching
6. Provide opportunities for outstanding teachers to share best practice within partner schools and in association with LEARN Teaching School

1. Further development of pupil's ability to effectively manage their own behaviour
2. Increase staff awareness in, and confidence to use, bespoke and individualised strategies/options to support behaviour management
3. Further improve attendance
4. Increase frequency of opportunity for School Council groups to develop shared input into school improvement planning

1. To ensure all leaders and managers have a shared and accurate understanding of what outstanding provision looks like
2. For leaders and managers to action plan effectively to drive up standards.
3. Strengthen cross school liaison through regular HT meetings involving similar needs schools from within the Trust and within Lincolnshire
4. To further develop subject leader accountability for raising standards
5. Increased access to post qualification training for teachers holding QTS
6. Increased access to career development opportunities for teaching assistants
7. By embedding coaching programmes for staff at all levels into day to day practise.

Raise pupil achievement and progression across all subjects and the wider curriculum		Strategic lead: SLT + Core subject leads		Link Governor:	
Outcomes: What will success look like for children? <ul style="list-style-type: none"> Increased % of pupils meeting or exceeding upper quartile targets in core subject areas and PSD Work and tasks will be well differentiated with good levels of challenge to raise attainment of most and least able Pupils requiring acceleration will be identified early and provided with well targeted intervention 2017/18 data analysis will evidence good gains and a closing/eradication of any known gaps Outcomes for PP and grant funded pupils will be at least in line or above peers. Attainment against EHCP targets is high
